Guest Speaker

**Dr. Paul Keith**

MD MSc FRCPC

Associate Professor of Medicine, Division of Allergy and Clinical Immunology, McMaster University

Dr. Paul Keith is an Associate Professor of Medicine, in the Division of Allergy and Clinical Immunology at McMaster University in Hamilton. He is extensively involved in medical education in both academic and community settings, and has an active hospital based clinical practice in adult and pediatric allergy and clinical immunology at the McMaster Site of the Hamilton Health Sciences Corporation and at the Firestone Institute of Respiratory Health at St Joseph's Healthcare in Hamilton, Ontario.

### After attending this session, you will be better able to:

- Describe warning signs of immunodeficiency and the treatment landscape in Canada
- Discuss the use of subcutaneous immunoglobulin in the treatment of immunodeficiency
- Review the interim results of the Real- World (CANCUN), a study aimed at understanding the patient experience of transitioning to CUVITRU
